IDENTITY

*The **definition of identity** is who you are, the way you think about yourself, the way you are viewed by the world and the characteristics that **define** you.*

Creating a corporate Identity gives a sense of personality and culture to your team. It ensures you will be recognised and present the image you want to be known for. Clothing plays a unique role in achieving this. More importantly it's powerful in the way it can make you feel – great clothing from a great brand delivers many benefits from the feelings of confidence & pride when wearing it, through to the consistency of image by selecting quality that keeps on looking good.
